

Company Profile 15: CloudLink Solutions (Cloud Computing Industry)

Quality Function

Quality	ID	Function Name	Function Description	Function Outcome
Excellent	RC.IP-1	Identify Critical Technical and Non-Technical Assets	CloudLink Solutions must conduct a comprehensive discovery exercise to identify their critical technical and non-technical assets. Technical Assets include but are not limited to data centres, hosting services, servers, databases, data, software, models, and services. It is important to identify critical service components, as some services may have higher priority or sensitivity than others. Non-Technical Assets include but are not limited to people, processes, and intellectual property (IP). For example, safeguarding intellectual property and understanding how business processes can be restored in case of a cyber incident is critical to the business continuity of CloudLink Solutions.	List of Technical Assets for CloudLink Solutions:- Data Centres: Global cloud data centres.- Hosting Services: Public and private cloud hosting with AWS, Azure.- Servers: 60 physical servers, 120 virtual servers.- Databases: Customer data and application data stored on SQL and NoSQL databases.- Data: Application logs, customer usage data, deployment metrics.- Software: Cloud management platforms, customer applications.- Models: AI-driven resource optimization models, traffic prediction algorithms.- Services: Cloud infrastructure services, managed IT services.- Networking and Infrastructure: Cloud network architecture, load balancing systems.- Security Assets: Multi-factor authentication (MFA), secure cloud access.- Development Tools: Container orchestration (Docker, Kubernetes), DevOps tools.- Communication Systems: Collaboration tools, customer communication platforms.- Compliance and Regulatory Reporting Systems: Regulatory compliance management systems.- Business Continuity and Disaster Recovery Systems: Cloud-based backup and failover systems.

Quality	ID	Function Name	Function Description	Function Outcome
				List of Non-Technical Assets for CloudLink Solutions:- People: Cloud engineers, support staff, security specialists.- Intellectual Property (IP): Cloud orchestration systems, proprietary algorithms.- Business Processes: Cloud service provisioning, customer support.- Technology: Networking hardware, security appliances.
